President Dukes recognized Mr. Steven Priester, newly-appointed student member of the State Board who will take his seat on the Board in July.

CONSENT AGENDA

The President reported that an additional personnel appointment has been distributed to Board members at their desk and asked for a motion to approve the Consent Agenda. Upon motion by Mr. DeGraffenreidt, seconded by Mr. Smith, the Board approved the Consent Agenda as follows: (In Favor – 8)

- Approval of Minutes of May 20, 2014
- Personnel (copy attached to these minutes)
- Budget adjustments for May, 2014
- National Board Candidates for 2014-2015

Mr. DeGraffenreidt noted that there are no National Board Candidates representing the Baltimore City Public Schools. Ms. Eberhart asked that research be undertaken to discern if National Board Certification improves teacher effectiveness and student learning. The President said she will ask Mr. South to include this discussion on the next Board planning agenda.
REVISED MANAGEMENT OPERATIONS MEMORANDUM: MARYLAND NUTRITION STANDARDS FOR ALL FOODS SOLD IN SCHOOLS

The Superintendent introduced Stewart Eidel, Section Chief, and Sara Booker, Staff Specialist, both in the Office of School and Community Nutrition Programs, to explain the need to revise the Management Operations Memorandum 12 approved by the Board in 2012. She recommended Board approval of the revised Maryland Nutrition Standards for all Foods Sold in Schools.

Ms. Booker reported that a lot of changes have been made since the Board last discussed this topic. She reported that the revised standards will define the scope of authority of the local education agency (LEA) regarding foods and beverages sold to students during the school day and to outline the federal and State regulations which apply to selling these foods and beverages in school and facilities that participate in the School Breakfast Program (SBP) and the National School Lunch Program (NSLP). She provided a summary of comments received during the open comment period and discussed the applicability of the new USDA and proposed Maryland State rules. Ms. Booker identified the various venues where food and beverages are sold such as school cafeterias, hallways, classrooms and fundraisers. She also provided a comparison of the USDA and MSDE Competitive Food Policies, the Maryland nutrition standards for all foods and beverages sold in school, and a summary of the nutrition standards for all foods sold in schools.

In response to a question by Ms. Staton, Ms. Booker said that students can bring food and beverages to school if they choose.

In response to a question by Ms. Diaz, Ms. Booker said that these rules do not apply to after school activities but that LEAs have the authority to make those decisions.

In response to a question by Ms. Eberhart, Ms. Booker said that regarding the application of these rules to Saturday and summer school programs, LEAs are deciding on a case-by-case basis.

Ms. Booker said, “We need to reach out to get support for this policy.”

Mr. DeGraffenreidt asked, “What are the consequences of not complying and what are you doing to prepare?”

Ms. Booker reported that the National Association of State Boards of Education (NASBE) has conducted webinars for superintendents and offered training materials. She noted that Dr. Lowery communicated with local superintendents and said “We are already in compliance. There is not a stark difference.”
Mr. Eidel said, “Many groups say the rules aren’t strong enough.”

Ms. Booker explained that local superintendents signed an agreement with the USDA and that there are repercussions if LEAs do not comply.

In response to another question by Mr. DeGraffenreidt, Ms. Booker said that the Department has partnered with the University of Maryland School of Medicine to look into the wellness policy and to determine the progress being made in Maryland on student wellness.

In response to a question by Ms. Staton, Ms. Booker said that students are learning to make healthy choices in smarter lunchrooms with the goal of these choices becoming life-long habits. She said that the program may be conducting culinary training and offering continuing education for teachers. She also noted that schools are using parent/teacher nights to get the message out to parents as well. Ms. Booker explained that these rules address food outside of the meals program and that the meals program has undergone some vast changes over the past few years.

In response to a question by Ms. Sidhu, Ms. Booker explained that schools do not have to participate in this program but that all twenty-four LEAs have chosen to participate.

In response to a question by Mr. DeGraffenreidt, Ms. Booker said the amount of money involved in selling food products depends on how many students participate.

Dr. Dukes suggested that the staff reach out to Community Health Centers for assistance in getting the information out.

Upon motion by Mr. DeGraffenreidt, seconded by Ms. Sidhu, and with unanimous agreement, the Board approved the revised Maryland Nutrition Standards for all food sold in schools. (In Favor – 8)

**COMAR 13A.07.09 EVALUATION OF TEACHERS AND PRINCIPALS (REPEAL AND REPLACE) PERMISSION TO PUBLISH**

Dr. Lowery invited Dr. Jack Smith, Chief Academic Officer, to provide background on the work done on educator evaluation in Maryland and recommended that the Board give permission to publish the proposed regulations for the evaluation of teachers and principals.

Dr. Smith discussed the work that has been done over the last four years to develop the new Teacher/Principal Evaluation System and the regulations that guide the System. He said, “We owe it to our students that we develop, in Maryland, the strongest educator corps in the country. Common Core standards were designed to prepare our students for
the world economy.” He explained that in two years there will be a tremendous amount of data on this issue and that the “default” model of the Teacher/Principal Evaluation System will be examined as the data is accrued.

Ms. Eberhart urged that, beginning in 2016, the System should be examined and all data eliminated up to that point and begin with a clean slate for the 2016/2017 school year. She noted that groups would be more supportive since there are so many questions at this point. In response to her suggestions, Dr. Lowery referred to the following section of the Regulation:

(b) For school years 2014-2015 and 2015-2016, the use of student learning objectives (SLOs) based, in part, on and informed by the data resulting from the State Assessments; such SLOs shall represent 20 percent of a teacher’s evaluation.

Dr. Lowery said, “We are trying to keep flexibility in these regulations. What you are asking for -- feedback -- we will get from the public.”

Ms. Eberhart expressed concern about the timing of the adoption of these regulations and the preparation needed by the start of the next school year. Dr. Lowery assured her that LEAs have already defined what they are going to use next year and that their teachers already know what their evaluations will look like next year. She explained that LEAs need parameters and that these regulations provide that. She assured Ms. Eberhart that every decision made is informed by information from LEAs. She said, “I promise this is being done in collaboration inclusively. We are still at the table having the conversation.”

Dr. Dukes said, “We appreciate the collaboration that has gone into this process. We are looking for more collaboration through this process.”

Upon motion by Dr. Finan, seconded by Mr. DeGraffenreidt, the Board granted permission to publish COMAR 13A.07.09 Evaluation of Teachers and Principals. (In Favor – 7; Ms. Eberhart opposed)

Ms. Eberhart said, “I am concerned with going beyond the two year period. We want something that is fair to teachers and successful for students.”

Dr. Lowery said, “We will be completely transparent and that the Board will have access to all information.”

Dr. Dukes said, “This is a decision that is important to all of Maryland.”
RACE TO THE TOP (RTTT) UPDATE

Dr. Lowery asked Penelope Thornton Talley to introduce her team to provide an update of the current status of the MSDE’s fifty-four RTTT projects.

Ms. Talley reported that of the fifty-four amendments submitted to the U.S. Department of Education (USDE), forty-six have been approved and that the remaining eight are currently being considered by the USDE. She invited Mary Gable, Assistant State Superintendent, Division of Academic Policy and Innovation, Zach Mangold, RTTT Project Manager, Melissa Shrop, Senior Project Manager and Dr. Henry Johnson, Assistant State Superintendent, Division of Curriculum, Assessment and Accountability, to update the Board on the progress of specific projects.

Dr. Johnson reported on project 39/25, Teacher Induction Academies, noting that Summer Academies are starting this week. Regarding the training conducted thus far, Ms. Sidhu stated that she had attended the Academy held at Washington College and noted that the teachers are very excited about this and said, “I was very impressed.”

Dr. Johnson also reported that four more regional world language academies are scheduled to be conducted this summer and that staff visited all 24 LEAs to find out what teachers need in order to develop professional development in world languages. Ms. Talley noted that one of the components of these projects is to provide a principal pipeline through summer training programs.

Mr. Mangold reported on project 10/28, Multi-Media Training, saying that resources have been acquired to get the project on track to finish by September 23rd.

In response to a request by Mr. DeGraffenreidt, Ms. Talley said that staff at a future meeting will provide major accomplishments and lessons learned through the RTTT projects. She said, “We are putting together a comprehensive communication piece for LEAs.”

In response to a question by Ms. Sidhu about project 17/32, Implement a Test Bank System (TIBS), Ms. Gable said that MSDE received approval on an amendment to extend this project until July 2015.

Dr. Dukes said, “Congratulations on the huge accomplishment.”

MEMORANDUM OF UNDERSTANDING (MOU) SUPPORTING STUDENT LEARNING OBJECTIVES

Dr. Lowery explained that an MOU has been prepared to codify the commitments and partnership between the Maryland State Board of Education (MSBE), the Maryland State
Education Association (MSEA), the Public School Superintendents Association of Maryland (PSSAM), the Maryland Association of Boards of Education (MABE), the Maryland Association of Secondary School Principals (MASSP), the Maryland Association of Elementary School Principals (MAESP), and the Baltimore Teachers Union (BTU) in the support of the advancement of professional development, common language, streamlined communications, and implementation strategies for Student Learning Objectives (SLOs) statewide and in each of the LEAs.

Betty Weller, President of MSEA, stated a need for professional development for teachers and principals on the standards, curriculum and teacher/principal evaluations. She reported that the National Education Association (NEA) collected $3 from each of its members to provide grants to state associations to provide professional development to educators. She reported that the grants require state associations to work in conjunction with local superintendents and state departments of education. Ms. Weller reported that this MOU will formalize the commitments of all of the stakeholders.

Dr. Dukes said, “We do have consensus.”

Upon motion by Mr. DeGraffenreidt, seconded by Mr. Smith, and with unanimous agreement, the Board agreed to be a signatory to this historic agreement. (In Favor – 8)

Representatives of the various organizations expressed their support for this effort and signed the MOU.

Dr. Dukes thanked Ms. Weller and the representatives of the other signatory organizations for partnering in this historic agreement and Dr. Lowery congratulated Ms. Weller on NEA’s approval of MSEA’s grant application.
