She introduced Ann Chafin, Assistant State Superintendent, Division of Student, Family and School Support; and Teresa Knott, Supervising Coordinator, School Performance, to brief the Board on the actions taken by the Baltimore City Public School System (BCPS) and the Prince George's County Public School System (PGCPS) regarding several schools in their districts.

Ms. Chafin explained that the local education agenciesbare the primary responsibility for restructuring the schools designated for Alternative Governance. She reminded the Board that they have approved nineteen plans for Alternative Governance for schools in Maryland thus far. She reported that the Principals of each school are in attendance at this meeting.

Ms. Knott explained that there are four options from which school systems can choose and that each local school system established a board to deal with Alternative Governance issues. She said that those designated boards will oversee the implementation of the Alternative Governance plans and that the State Board will receive documentation of the meetings and actions taken by these local boards. She reported that local school systems have committed vast amounts of funding to the designated schools and that both PGCPS and BCPS will hold summer orientation retreats for new staff prior to the 2008-2009 school year.

Baltimore City Public Schools

Dr. Grasmick introduced Dr. Andres Alonso, CEO, BCPS and recommended approval of the Alternative Governance proposals for the following nine schools in Baltimore City:

- Forest Park Middle – Option 1 – Replace all or most of the school staff
- Francis M. Wood High– Option 1 – Replace all or most of the school staff
- Harbor City Middle/High – Option 1 – Replace all or most of the school staff
- Harford Heights Intermediate– Option 1 – Replace all or most of the school staff
- Northwestern High– Option 1 – Replace all or most of the school staff

- Sharp-Leadenhall Elementary– Option 1 – Replace all or most of the school staff
- Sinclair Lane Elementary– Option 1 – Replace all or most of the school staff
- Woodbourne Day Middle – Option 2 – Contract with a private management company

Dr. Alonso introduced his staff who were instrumental in this process and said “leadership is the key.” He discussed the essentials that guide all school and central office decisions and reported on the steps taken to ensure fair student funding in the schools which included the reduction of 310 positions at the Central Office. He explained that the school system is trying to break the division between vocational and professional learning. Dr. Alonso discussed the various transformation schools and the alternative schools redesign. He also introduced the school Principals who were present and stated that all nine schools are zero-basing their staffs. Dr. Alonso reported that the BCPS Board approved a private management company, High Roads, to
provide services to the Woodbourne Day Middle School. He noted, “This work is about accountability.”

In response to a question by Ms. Cooper, Dr. Alonso explained the process used to determine the funding for each school, based on the number of students at entry grade who were below proficiency in reading and mathematics. He explained that additional funding was also provided to schools based on the number of advanced students.

In response to a question by Mr. Butta about after-school and Saturday classes, Dr. Alonso said “We cannot have a one size fits all. We need increased opportunities for students.” In response to another question by Mr. Butta, Dr. Alonso said that principals will be looking at evaluations and interactions of staff with students and the varying needs of each school when making determinations about the hiring of staff.

Ms. Garcia said, “This is a lot of work and I commend you.” In response to her question about the number of African-American males in the specialty schools, Dr. Alonso noted that all students have the opportunity to apply and that the City is primarily African-American. In response to Ms. Garcia’s question about the inclusion of community-based organizations, Dr. Alonso said they are looking at Charter schools to find out the best avenues for bringing in community support to the schools.

In response to a question by Mr. Ewing about the drop-out rate, Dr. Alonso said that the unique student identifier is used to determine the drop-out rate and that “whatever the number is, it’s too large.”

Dr. Grasmick commended the work of Dr. Alonso and his staff and noted that the programs selected for the schools will be aligned with the Voluntary State Curricula (VSC). She also made a statement that, while she is fully supportive of these proposals, she urged that there will be no ambiguity about the programs that are mandated in special education and the importance of ensuring that programs for the arts and libraries will not be seen as optional. She said, “It’s important that a child not be denied those opportunities by accident of where that child lives.”

Mr. Brooks thanked Dr. Alonso for a very thorough presentation and said, “We realize that a traditional model does not work.”

Upon motion by Mr. Goodall, seconded by Ms. Garcia, and with unanimous agreement, the Board approved the Alternative Governance proposals for the nine schools in Baltimore City. (In Favor – 9)

She introduced Andrea Alexander, Specialist, Student Behavior Interventions, Division of Student, Family and School Support, and Ann Chafin, to review proposed changes to COMAR 13A.08.06 Positive Behavioral Interventions & Support Programs. Dr. Grasmick recommended State Board adoption of the amendments and reported that these programs have been enormously positive and have provided excellent results.

In response to a question by Mr. Goodall, Ms. Alexander said the program is designed to retrain school staff to identify what behaviors should be managed either in the classroom or in the school office. She reported that this is a national model.

In response to a question by Mr. Ewing, Ms. Alexander said that the Board is welcome to attend any and all training sessions and agreed to provide the Board with the upcoming training schedule. Ms. Chafin said that local school systems have done a great job in training their staffs.

Dr. Seremet explained that Mr. Tucker was recently inducted into the Maryland Music Educators’ Hall of Fame which recognizes excellence in teaching and/or administration, contributions and improvements made in music education, professional ideals and academic integrity and betterment of the profession through exemplary service or acts. She reported that Mr. Tucker has been on staff at the Department since 1975.

STATUS OF THE FINE ARTS EDUCATION ADVISORY PANEL

The Superintendent introduced Mr. Richard Deasy, Co-Chair of the Fine Arts Education Advisory Panel and Director of the National Arts Education Partnership. She said Mr. Deasy has generated incredible research regarding the arts and why the arts deserve center stage. She also introduced Ms. Mary Ann Mears, Member, Arts Education in Maryland Schools Alliance Board of Trustees and Member of the Fine Arts Education Advisory Panel. She then asked Ms. Mears and Mr. Deasy to provide the Board with an update on the work of the Panel.

Mr. Deasy reported that there is no continuity of the arts in states other than Maryland and that the arts represent multiple pathways to learning. He reported that a poll was conducted which reflected voter attitudes of the vast importance of the arts. Mr. Deasy explained that time allotted to the arts in schools is rapidly diminishing. Mr. Deasy said that Maryland’s proposed Voluntary State Curriculum in the Fine Arts is the best in the country and that he recommends Maryland’s program to other states looking to improve their fine arts curriculum.

Ms. Mears introduced members of the Fine Arts Education Advisory Panel and discussed the four priorities that are used to guide the Panel’s collaborative efforts and actions statewide.

In response to a question by Mr. Tufaro, Ms. Mears said that the focus on assessments has caused students to be pulled from art classes in order to prepare for and complete assessments in core subjects.

Ms. Garcia commended the presenters on their work in this area.

FINE ARTS VOLUNTARY STATE CURRICULUM (VSC)

Dr. Grasmick introduced Dixie Stack, Director of Curriculum, Division of Instruction; Jay Tucker and Sandra Reider, Principal Researcher, Westat Corporation to discuss the evaluation of the Fine Arts VSC and requested the Board’s acceptance of the Fine Arts VSC.

Ms. Stack reported on the development of the Fine Arts VSC and noted that it is organized in the same format as all other VSCs in Maryland. She stated that Westat Corporation was awarded a contract to review the VSC and asked Ms. Reider to provide information on the charge and findings of the Corporation.

Ms. Reider said the charge to Westat was to study and make recommendations on the draft Fine Arts VCS. She reported that Westat used nationally recognized content experts and discussed the recommendations made by the group of experts.
Mr. Tucker discussed an award-winning toolkit developed by MSDE for teachers of the fine arts and plans to provide continuing professional development.

Mr. Ewing stated that he was very impressed with the work of the group and noted the difficult requirements for students to master. Mr. Tucker assured Mr. Ewing that students will be able to meet the requirements provided in the VSC.

Dr. Finan noted that this VSC gives the pre-service beginning teachers a strong basis for teaching the fine arts.

Upon motion by Dr. Finan, seconded by Ms. Cooper, and with unanimous agreement, the Board accepted the Fine Arts VSC. (In Favor – 10)

**SEED SCHOOL**

Dr. Grasmick reminded Board Members that over the last two months the SEED School of Maryland representatives have discussed the proposed operations of the School including the Amended Articles of Incorporation and the Amended and Restated By-Laws. Mr. Robbins reported that 125 families attended the recently-held student lottery in which forty boys and forty girls were selected from eligible applicants. He noted that a priority waiting list was also selected including twenty boys and twenty girls. Mr. Robbins reported that twelve Maryland counties were represented among the eighty students selected and that a report on the demographics of those students will be transmitted to the Board in the near future. He stated that eighty percent of the students selected qualify for the Free and Reduced Meals (FARM) Program. Mr. Robbins said that orientations and home visits will be conducted with students and their families over the summer months.

In response to a question by Ms. Cooper, Mr. Robbins read the list of counties from which the students were selected.

In response to a question by Ms. Garcia about the racial breakdown of the students selected, Mr. Roberts said that 85 to 90 percent are African-American, three percent are Latino, three percent are Caucasian and three percent fall under the “other” category.
In response to a question by Ms. Garcia, Ms. Beck said that all documents provided to applicants and their families were printed in both English and Spanish.

In response to a question by Dr. Dukes, Ms. Williams said that the staff hired are a diverse population and that the total number of staff will be 47. Dr. Dukes urged that cultural competency be included in training of the staff prior to the opening of school. Ms. Beck assured her that this will be included in the training of staff.

Ms. Beck went over the modifications made to the Bylaws in response to a result to the State Board’s concerns expressed at the June meeting. In response to a question by Dr. Grasmick, Ms. Beck said that meetings of the SEED School of Maryland Board of Trustees can be held by telephone conference.

In response to a question by Mr. Butta about the SEED School Board meetings not being subject to the Open Meetings Law, Ms. Kameen explained that the SEED School structure is crafted much like the structure of the Maryland School for the Blind and that the Attorney General’s Office determined that the SEED School, like the Maryland School for the Blind, would not be subject to the Open Meetings Law.

In response to a question by Mr. Ewing, Ms. Beck said that when the Board of Trustees is convened, it will consider adopting the Open Meetings Law. Mr. Ewing suggested that the State Board adopt the SEED School of Maryland’s Articles of Incorporation and Bylaws and send a letter to its Board of Trustees requesting its adoption of the Open Meetings Law. Mr. Brooks asked Ms. Kameen to prepare a letter to be forwarded to the SEED School with the State Board’s request.

In response to concerns expressed by State Board members, Ms. Beck said that a Conflict of Interest Policy will be established to apply to the SEED Board of Trustees and that the State Board will receive a copy when completed.

Ms. Beck asked for the Board’s approval of the SEED School’s proposed dismissal standards. Ms. Williams explained that the SEED School staff worked very closely with the MSDE staff to craft these standards. Ms. Lewis reported that the SEED School staff looked at policies in all of Maryland’s school systems and that they will work in collaboration with the home school system in the event that a student is expelled from the SEED School.

In response to a question by Mr. Brooks, Mr. Roberts explained that the General Assembly outlined the definition of “disadvantaged students.”

Mr. Brooks stated that the State Board will include in its letter to the SEED School a request for a copy of the Conflict of Interest Policy as well as its request for the SEED Board of Trustees to hold its meetings in conformance with Maryland’s Open Meetings Law.

Upon motion by Mr. Ewing, seconded by Ms. Garcia, the Board accepted the Articles of Incorporation, the Amended and Restated Bylaws, and the Dismissal Policy, as amended. (In Favor – 7; Mr. Goodall abstained and Mr. Butta and Ms. Cooper dissented)
Mr. Ewing said, “The results of the lottery show that there are thousands of students who can qualify for this program. We have to hope that this opens the eyes of legislators of the massive social problems.”

Mr. Butta expressed his concerns that there is too much control by The SEED Foundation, Inc. stating that “it is a “one sided contract.”

Ms. Beck thanked the Board and Superintendent and her staff for their support.

**PROPOSED POLICY ON AFFILIATION WITH NON-PROFIT ENTITIES**

Dr. Grasmick asked Principal Council Liz Kameen to review a proposed Policy on Affiliation with Non-Profit Entities. She explained that, in order for the Department to obtain grants from private foundations to strengthen its capacity to provide high quality education for all students in Maryland, the Department needs a policy to establish an affiliation with a 501(c)(3) corporation. She asked Ms. Kameen to discuss the proposed Policy.

Ms. Kameen explained the purpose, definition of an entity, and the standards for recognition of an affiliated entity. After brief discussion of the item, the Board asked Ms. Kameen to delete the following:

1. Self Awareness
2. Career Awareness

Ms. Bream explained that the schools in Carroll County created a Student Advisory Program for student career development and noted that the Career Development Framework would be a valuable asset to the Program.

Ms. Bream explained that student advisors in the high schools in Carroll County work with students throughout their four years in high school.

In response to a question by Mr. Goodall, Ms. Oliver said that the post/secondary/adult toolkits will assist students in their matriculation to higher education.

**THE PURSUIT OF EXCELLENCE IN TEACHER PROFESSIONAL DEVELOPMENT**

Dr. Grasmick reported that the Maryland Teacher Professional Development Advisory Council was established in January 2003 for the purpose of insuring that all Maryland teachers are the recipients of high quality professional development throughout their professional careers. She asked Dr. Seremet, Dr. Bruce Haslam, Managing Director, Policy Development Associates; and Dr. Jackie Haas, Superintendent of Harford County Schools and Co-Chair of the Maryland Professional Development Advisory Council to discuss the third report of the Council and its plans for next steps.

Dr. Seremet asked members of the Advisory Council, who were present, to stand and be recognized.

Dr. Haslam discussed the work of the Council which included exploring the issues surrounding professional development, the use of the Planning Guide and Planning Framework, evaluation and the deployment of school-based professional development staff. He said the use of the Planning Guide is “a work in progress” and that users say there are some challenges to its use. He said the Council offered recommendations and action steps to local school districts and focused on collaboration between the Department and the districts. He reported that there have been numerous evaluations of teacher professional development programs and that the challenge is to evaluate the link between teachers’ learning and student outcomes. He noted that the trend in Maryland is towards school-embedded professional development staff and that one of the biggest challenges is to provide time for professional development.

Dr. Haas said that one of the observations of the Council was that support for professional development must come from the leadership of the schools. She noted that professional development has been included in school improvement plans and discussed the next steps to be taken. Dr. Haas said that the Council is working with higher education institutions to evaluate graduate student performance. She said that data is needed to make decisions on where funding should be used for professional development.

Mr. Butta said, “Congratulations on this work. It is extremely important” and asked what are the road blocks to providing good teacher professional development?

Dr. Seremet said that the Council is working to target professional development to teacher needs. She reported that there are many professional development courses but very little accountability.
In response to a question by Mr. Goodall, Dr. Haas said that many local school systems have ongoing training not only for teachers but for principals as well.

On behalf of the Board, Mr. Brooks thanked the presenters and the Council Members for their hard work.
