Appendix B: IEP Team Decision-Making Process Eligibility Tool

This eligibility tool may be used by IEP Teams in identifying students with disabilities for participation in the Mod-HSA for each relevant content area.

The student is learning based on the State's approved Academic Content Standards/Core Learning Goals in Algebra/Data the appropriate content area being considered: Algebra/Data Analysis, Biology, English and/or Government. There must be sufficient objective evidence demonstrating that the student is not likely to achieve grade-level proficiency within the school year covered by his/her IEP.	Algebra/ Data Analysis	<input type="checkbox"/> Yes	<input type="checkbox"/> No
	Biology	<input type="checkbox"/> Yes	<input type="checkbox"/> No
	English	<input type="checkbox"/> Yes	<input type="checkbox"/> No
	Government	<input type="checkbox"/> Yes	<input type="checkbox"/> No

The student requires and receives modified academic achievement standards aligned with the Maryland Academic Content Standards/Core Learning Goals in the relevant content area(s) for the student's grade-level during instruction and assessments. In addition, specific accommodations implemented in these instructional and assessment settings may include: less complex, fewer and shorter reading passages, shorter or less difficult questions, and test items with fewer answer choices.	<input type="checkbox"/> Yes	<input type="checkbox"/> No
--	------------------------------	-----------------------------

The student has had consecutive years of individualized intensive academic instruction intervention in the relevant content area(s) consistent with his/her IEP, and although progress toward grade-level standards was made, he/she is not making progress at grade level.	<input type="checkbox"/> Yes	<input type="checkbox"/> No
---	------------------------------	-----------------------------

The student demonstrates that he/she cannot attain proficiency on the Algebra/Data Analysis, Biology, English and/or Government HSA tests, even with the provision of accommodations based on documented multiple valid and objective measures of student's progress (or lack of progress). Examples include the end-of-course assessments, other State assessments, district wide assessments, data gathered from classroom assessments, and other formative assessments that can validate documented academic achievement in response to appropriate instruction. There must be enough time to document the progress (or lack of progress) in response to appropriate instruction.	<input type="checkbox"/> Yes	<input type="checkbox"/> No

Grade Level Proficiency: The instructional performance in the relevant content area(s) is identified on the IEP [as measured by documented multiple valid and objective measures of the student's performance over time on a State's general assessment and other assessments to include end-of-course assessments, State assessments, district-wide assessments, data gathered from classroom assessments or other formative assessments] is substantially below grade level. ☐ Yes ☐ No

If yes, specify the instructional performance grade levels in the relevant content areas identified on the IEP, using objective evidence as measured by documented valid and objective measures (e.g., State assessment instruments, end-of-course assessments, district-wide assessments, and data gathered from classroom assessments) designed for assessment of achievement, that are substantially below grade level.
