Scheduled feedback calls are planned in the event that clarification of fiscal or programmatic portions of the grants are necessary or requests for additional information/documentation are required to move the grant approval process forward. Calls will be made within the identified one hour block to the LSS/PA Directors of Special Education and will use a call in conference line provided to allow fiscal LSS/PA partners to join the call from their respective offices. In the event a call is not necessary for a particular LSS/PA an email will be sent to the Special Education Director, no later than the top of the scheduled hour, to inform them of their grant status.
